CATALOGUE

OF THE

A L U M N I

OF THE

MEDICAL DEPARTMENT

OF THE

UNIVERSITY OF PENNSYLVANIA.

1765-1877.

PUBLISHED BY THE SOCIETY OF THE ALUMNI OF THE MEDICAL DEPARTMENT

PHILADELPHIA:
COLLINS, PRINTER, 705 JAYNE STREET.
1877.

NOTICE.

No general Catalogue of the Graduates of the Medical Department of the University of Pennsylvania having been published since 1835, the continuation of such a catalogue to the latest date has been deemed by the Society of the Alumni of that department sufficiently important to justify the publication of this edition as soon as practicable. Under the authority of that Society the Executive Committee have undertaken the present publication, relying upon the subscriptions of the graduates of the school to enable them to meet the cost of compilation and printing.

The Committee take pleasure in acknowledging their obligations to the heirs of the late Professor CARSON for very material aid in the preparation of this catalogue, through the presentation to the Society of the only complete list of the medical graduates; this list having been in the possession of their distinguished father as a member of the Faculty and the historian of the School.

As it is proposed to issue a new edition every ten years, it is essential, for the purpose of correction and greater completeness in future editions, that errors and defects in the present one should be fully noted.

The Alumni are, therefore, earnestly requested to report, without delay, all errors and omissions, also the decease of graduates, to "the Corresponding Secretary of the Society of the Alumni of the Medical Department of the University of Pennsylvania," Medical Department Building, West Philadelphia.

PHILADELPHIA, October, 1877.

CATALOGUE.

| NAME. | RESIDENCE. | DATE. | SUBJECT OF ESSAY. |
|-------------------------|------------------|-------|--|
| Abadie, Eugene H. | Pennsylvania, | 1833 | Epilepsy. |
| Abbett, Henry, Jr. | Pennsylvania, | 1825 | Injuries of the Head. |
